Festivo

The digital infrastructure connecting the entire event ecosystem

Why Is Going to an Event So Complicated?

Attendees jump across multiple platforms just to decide whether to go.

1. **Message**
   A friend tells you about an event
2. **Instagram**
   You search for photos and details
3. **Google**
   You look up the venue and time
4. **Maps**
   You find directions and where it’s located
5. **Ticket Site**
   Prices and buy a ticket
6. **Messaging**
   You confirm plans with friends and who’s going

6 apps. 1 event.

Finding Opportunities Is Even Harder

The Professional Struggle

Creative professionals like DJs, photographers, and event planners struggle to find relevant local opportunities.

Information is scattered, unstructured, and inefficient across multiple platforms.

01

Google Search

Scouring for venue listings

02

Instagram Scrolling

Looking for posts and stories

03

Direct Messages

Asking venues and promoters

04

Guesswork

Hoping you found everything

The Event Industry Is Massive. But Digitally Fragmented.

There is no unified digital ecosystem for events.

Social Media

Instagram, Facebook, TikTok

Ticketing

Eventbrite, Ticketmaster, Resident Advisor

Reviews

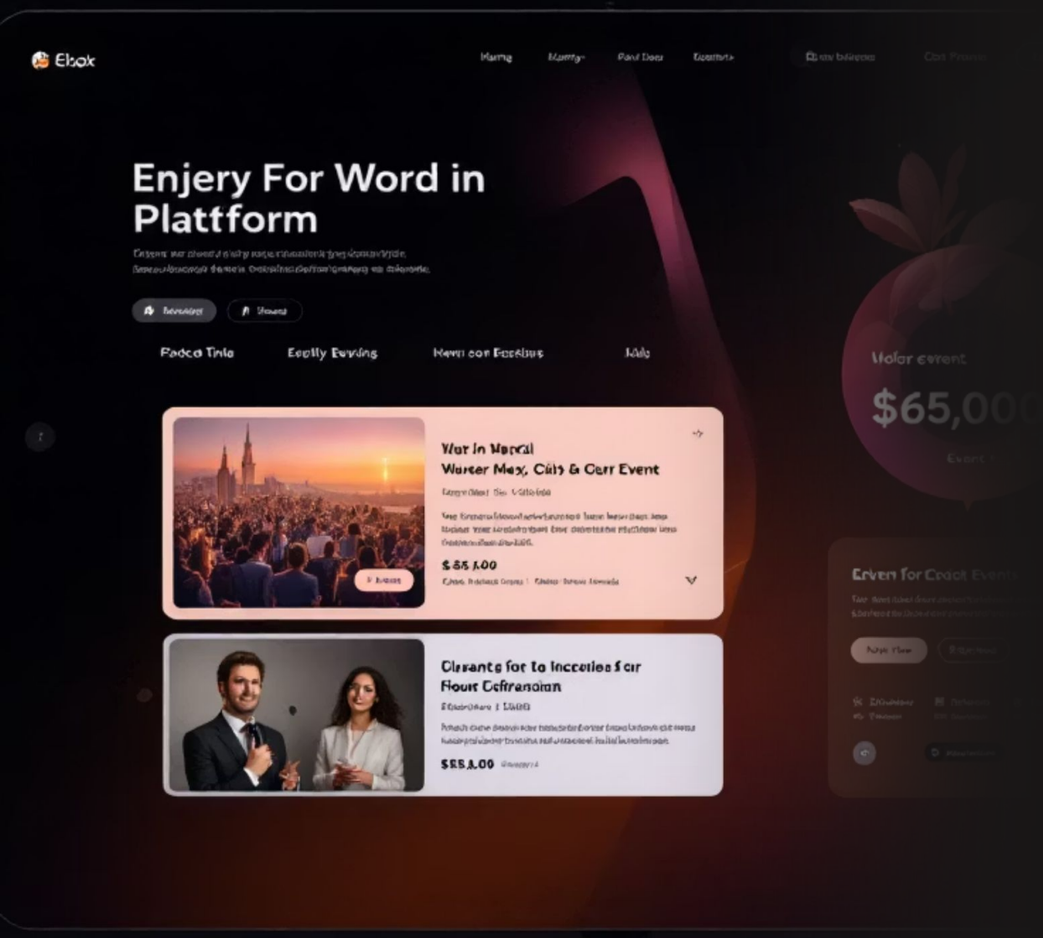
Google, Yelp, social comments

Hiring

LinkedIn, Upwork, word of mouth

Messaging

WhatsApp, Telegram, SMS



One Platform. The Entire Event Ecosystem.

Festivo integrates social media, event discovery, ticket redirection, and a hiring marketplace, all inside one web-based platform focused on the event and creative industries.

Social Media
Event-based posts and community engagement

Event Discovery
Filters, reviews, and personalized recommendations

Ticket Redirection
Seamless purchase through integrated partners

Work Marketplace
Job postings, applications, and portfolio building

Discover. Connect. Work.

Social Feed

Event-based posts linked to real events with photos, videos, and community conversation

Event Pages

Filters, reviews, RSVP, ticket redirection, and guest list management in one place

Work Marketplace

Post jobs, apply to gigs, build portfolios, and receive ratings from clients

The Platform Gets Smarter Over Time

Structured Event Data

Every event tagged with genre, location, capacity, and audience type

Personalized Recommendations

Suggestions based on your preferences and behavior

Interest-Based Discovery

Techno fans see techno events. Wedding professionals see wedding gigs

Higher Retention

Smart matching keeps users engaged and returning to the platform
